Ordering Process

1 Customer offer floor plan with CAD&VIDEO

2 Communicate theme&budget &ideas

3 Offer Concept Design Confirmation

4 Determine the design and provide a quote

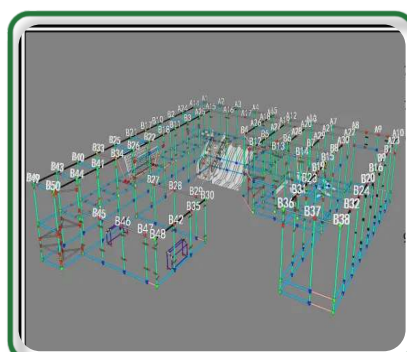

5 Confirm Order And Pay Deposit To Produce

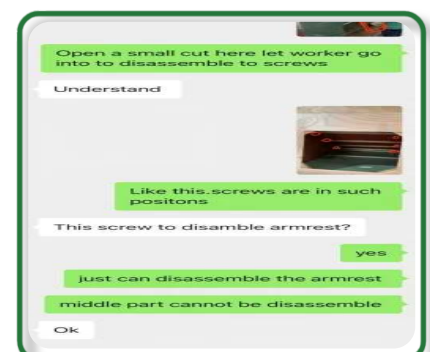

6 Update Workshop Production With Videos And Diagrams

7 Pay the balance and arrange delivery

8 3D Installation Guidance Or Worker Dispatch

9 After-sales&accessories replacement service

Key Materials Description

Thickened galvanized steel pipe

Using Dia48mm hot-galvanized steel pipe with wall thickness 1.8cm or more, ensures uniform coating, strong adhesion, corrosion resistance, and reduced susceptibility to rust.

Flame-retardant plywood board

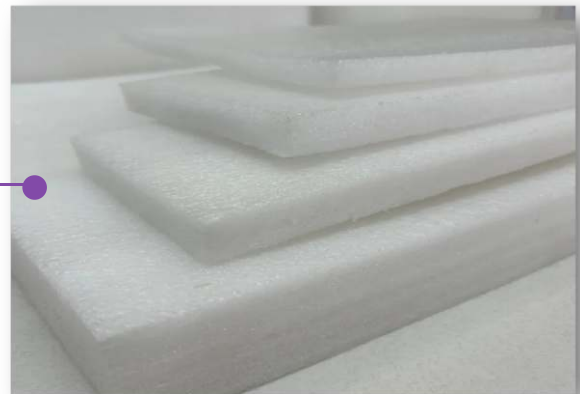

Select high-quality plywood boards with 2cm thickness and flame-retardant properties.

Ensure the moisture content is below 8% to prevent deformation and mold, making them sturdy and durable.

2-4cm Thickness EPE sponge

And some spare parts we put one more 1.0cm thickness high density foam, make sure more soft and safety when kids playing.

High quality PU leather

Made of durable 0.9mm thick fireproof PU leather, it offers high density, breathability, no odor, attractive color, and wear resistance without fading
